WSP5 (LHWP) ZAG000020017

As established by Notice No 2631 in Government Gazette No 10545 of 12 December 1986, and revised by Notice No 277 in Government Gazette No 21017 of 24 March 2000.
A Schedule 2 Public Finance Management Act no. 1 of 1999 entity.

APPOINTMENT OF MR PERCY SECHEMANE AS CEO

As empowered by Section 17(1) of Notice No 277 in Government Gazette No 21017 of 24 March 2000 (*the Notice of Establishment*), the board of TCTA has appointed Mr Dinizulu Kumalo Percival (Percy) Sechemane as Chief Executive Officer of TCTA with effect from 22 October 2018 with the concurrence of the Minister of Water and Sanitation.

Mr Sechemane has spent his whole career in the engineering and infrastructure funding environments and his experience spans the public, municipal and private sectors.

Since September 2008, Mr Sechemane has been CEO of Rand Water, the largest water utility in Africa, which supplies bulk water to an area with over 12 million customers across five provinces.

In addition to this, in November 2015, the President appointed him to be one of the Commissioners of the National Planning Commission (NPC) for a five year term. He leads the NPC's task team on water.

Mr Sechemane started his career at Eskom where he spent eleven years, culminating in his appointment, in 2003, as General Manager for the Western Region where he managed the regional integration strategy between the old homeland electricity structures and those of the former Western Transvaal region.

In 2005 he spent a year as Chief Operations Officer for RED 1, the pilot Regional Electricity Distributor envisaged for the region including City of Cape Town, 16 district municipalities and 39 local municipalities in the Western and Northern Cape. He was responsible for the large scale integration of the Western Region Business Units.

Between 2006 and 2008 he served as regional CEO of Landis+Gyr responsible for Africa. Landis+Gyr Ag is a Swiss-based multinational that designs and manufactures metering products for the electricity and gas industries. He was responsible for developing, driving and selling metering equipment and its back-office systems.

Mr Sechemane holds BCom and MBA degrees from North-West University (NWU).
